

2020

# Texas Border Crime and Other Criminal Activity Report

Report Date: May 30, 2021

Reporting Agency: Department of Public Safety

# Introduction

Texas Government Code § 411.055, requires DPS to prepare and submit the *Annual Report on Border Crime and Other Criminal Activity* to the Texas Legislature, not later than May 30<sup>th</sup> of each year.

This report is informed by data submitted by local law enforcement agencies in Texas for offenses and arrests reported to DPS related to activity during the period of January 1, 2020 to December 31, 2020. The report utilizes Uniform Crime Reporting (UCR) data to provide border crime statistical data which occurred in Texas Counties contiguous to the Texas / Mexico border. Data relating to border crime arrests is sourced from the Computerized Criminal History (CCH) system. This data is derived from two different sources which collect different data types (one based on offense occurrence and the other based on arrest events), this data is presented separately. While there may be some overlap between the data sources, they cannot be reliably comingled as there is no information to tie a specific crime incident report to a specific arrest event. In order to reinforce the difference in the data, the information is visually separated by color with border crime statistical data presented in blue and gray while border crime arrest crime data is provided in black and white.

Section 772.0071(a)(1) of the Texas Government Code defines “Border crime” as “(a)ny crime involving transnational criminal activity that undermines public safety or security, including an offense:

- (A) during the prosecution of which an affirmative finding may be requested under Article [42A.054](#)(c) or (d), Code of Criminal Procedure;
- (B) under Chapter [19](#), [20](#), [20A](#), [21](#), [22](#), [46](#), [47](#), or [71](#), Penal Code;
- (C) under Title 7 or 8, Penal Code;
- (D) under Chapter [481](#), Health and Safety Code;
- (E) committed by a person who is not a citizen or national of the United States and is not lawfully present in the United States; or
- (F) that is coordinated with or related to activities or crimes that occur or are committed in the United Mexican States.”

Border crime statistics use the standardized Summary Reporting and Incident Based Reporting data from local law enforcement agencies contiguous to the Texas / Mexico border. Further information about the Summary and Incident Based Reporting activity is available on the Texas UCR Program [webpage](#). Calendar year 2020 saw the retirement of the Summary Reporting methodology so this 2020 Border Report will be the last year that UCR contains data from both the Summary and National Incident Based Reporting System (NIBRS) reporting options. Beginning January 1, 2021, Summary Reporting was no longer accepted from Texas law enforcement agencies. Because NIBRS reporting will be the only acceptable option for UCR reporting, DPS had already been working with agencies across Texas who reported Summary data to assist them with moving to NIBRS reporting.

Border arrests refers to criminal offenses committed by persons who are not lawfully present in the United States. Please note: the arrests in this report do not include all arrests committed by persons not lawfully present in the United States. Lawful presence is determined by the Department of Homeland Security (DHS) when the arrestees' fingerprints are matched to fingerprints in the DHS database. If an unlawfully present individual is arrested and their fingerprints were not already enrolled in the DHS database at the time of their Texas arrest, DHS would be unable to biometrically verify their immigration status and therefore, their arrests are not included in these counts. Additional information related to the data collections used to inform the border arrest information in this report can be found on the [Texas Criminal Illegal Alien Data webpage](#).

The information contained in this Report is accurate as of February 26<sup>th</sup>, 2021. The underlying data changes continuously as submissions are created and updated from law enforcement agencies across the State multiple times each day. Because of this, it may not be possible to duplicate the figures included here even using the same search criteria. Slight variations in results obtained using identical queries are expected and normal for the systems used in compiling this information due to the dynamic reporting nature of the process.

# Executive Summary

Texas is fortunate to have a high number of law enforcement agencies that contribute to the UCR program. As of February 26<sup>th</sup>, 2021 there are 1,090 Texas agencies contributing data to the UCR program. Without their participation, reports such as this would not be meaningful.

Border crime impacts all areas of Texas. As the data contained in these pages demonstrates, criminal illegal aliens account for a significant number of serious offenses in Texas. The report does not imply that unlawfully present individuals commit crime at a higher rate than citizens, it simply provides a count of the Texas arrests of individuals who are not legally present in the United States. These criminals harm Texans and affect our safety and security.

DPS publishes a Crime in Texas (CIT) report every year using data collected through the state's UCR program. The CIT provides statistics and information for selected offenses across Texas, and each yearly report beginning in 2011 is available on the [CIT webpage](#). The Summary and Incident-Based Reporting in this report is based on the same datasets, but the portion of this Report related to those types of standardized reporting, which makes up the bulk of the data in this Border Report, focuses on law enforcement reporting related to activity in the border regions of Texas.

# Border Crime Arrest Data

The data in the chart to the right depicts statewide border crime arrest related to individuals not lawfully present in the United States for the period of January 1, 2020 through December 31, 2020.

The table below reflects the number of arrests for border crime offenses by county as reported in the 20 border and non-border counties with the highest numbers of reported arrests. The counties listed represent more than 95% of the reported activity.

Selected offense categories occurring in all counties in 2020 added up to 26,864 arrests. Spreadsheets that detail instances for all reported crime categories by county can be found on the [DPS website](#).

## Offense Counts by County

County	Totals by County

Weapon Offense	368
<b>Total of Selected Offenses</b>	<b>25,924</b>
All other offenses	940
<b>Statewide Total Offenses</b>	<b>26,864</b>

# Border Crime Statistical Data

This section reflects border crime statistical data submitted by border agencies to the Texas UCR program. 2020 is the last year the UCR program accepts reports in two formats—the traditional Summary reporting methodology and the more data rich National Incident Reporting System (NIBRS) format.

While 411.055 of the Texas Government Code directs the DPS to utilize NIBRS reporting for the Border Report, not all Texas agencies reported in the NIBRS format in 2020. Because of this difference in reporting methodology DPS has used both NIBRS and Summary reporting to inform this report. All Texas agencies are working to transition to NIBRS reporting by January 1, 2021 and DPS anticipates being fully transitioned to NIBRS by May 30, 2022.

Data submitted by border agencies in the NIBRS format are shown on pages 6 and 7, while Summary reporting agencies are displayed on page 8.

Additionally, statewide UCR data totals, harmonized to the Summary reporting definitions as published in the Crime In Texas publication, are depicted on page 9.

***Data reflected on the following pages is as of February 26<sup>th</sup>, 2021. UCR data is continually updated so current data may slightly differ from what is contained in this report. Agency totals by month are available on the [DPS website](#).***

<b>Total</b>	<b>1927</b>	<b>13377</b>	<b>26771</b>	<b>88301</b>	<b>108047</b>	<b>461625</b>	<b>83458</b>	<b>783506</b>

\*The UCR program reporting criteria for murderous offenses significantly differ between the Summary reporting – where murder is the only offense reported – and the more recent NIBRS definition – in which the category of murder includes murder and manslaughter by negligence. For this table, Summary reporting terminology is used. Summary reporting ended December 31<sup>st</sup> 2020, so beginning with the Report issued for 2021, all reporting agencies data will be submitted based on the NIBRS methodology. Given the difference in terms and criteria, numbers in subsequent Reports may reflect a substantial change. This is an expected result given the differences between the two categories.

\*\*The UCR program reporting criteria for sexual offenses significantly differ between the Summary reporting – where the term rape is used - and the more recent NIBRS definitions – which uses sexual assault. For this table, Summary reporting terminology is used. Summary reporting ended December 31<sup>st</sup> 2020, so beginning with the Report issued for 2021, all reporting agencies data will be submitted based on the NIBRS methodology. Given the difference in terms and criteria, numbers in subsequent Reports may reflect a substantial change. This is expected given the differences between the two categories.

\*\*\*The UCR program reporting criteria for assault offenses significantly differ between the Summary reporting – where assault under Texas Penal Code §22.01 is the only offense reported – and the more recent NIBRS definition – in which the term assault offenses includes aggravated assault, assault, and intimidation. For this table, Summary reporting terminology is used. Summary reporting ended December 31<sup>st</sup> 2020, so beginning with the Report issued for 2021, all reporting agencies data will be submitted based on the NIBRS methodology. Given the difference in terms and criteria, numbers in subsequent Reports may reflect a substantial change. This is an expected result given the differences between the two categories.

# Detailed Border County Crime Statistics

The information on the following pages provides detailed totals of offenses for each border region law enforcement agency, grouped by county that reports uniform crime data to DPS. Because not all of the agencies within a given county report utilizing the same methodology (Summary vs. NIBRS), the data depicted here has been harmonized to the base Summary reporting method. This is consistent with how the annual *Crime In Texas* report is generated. Therefore, because of the data harmonization, crime statistics shown here for agencies noted as NIBRS reporters may differ slightly from the NIBRS based data reported for the same agency on pages 6 and 7 of this report. Rape and assault are the areas most impacted by the differing definitions used by NIBRS and Summary reporting.

***Data reflected on the following pages is as of February 26<sup>th</sup>, 2021. UCR data is continually updated so current data may slightly differ from what is contained in this report. Agency totals by month are available on the [DPS website](#).***
