2018 Crime In Texas - Executive

According to data compiled by the Department of Public Safety's Uniform Crime Reporting (UCR) program, the overall major crime rate (the number of crimes per 100,000 population) in Texas for 2018 decreased 6.7% compared to 2017. The violent crime rate decreased 5%: murder decreased by 7.5%; rape rate increased by 2.5%; robbery decreased by 13.2%; and aggravated assault decreased by 2.9%. The overall property crime rate decreased by 7%, burglary decreased by 13%; larceny-theft decreased by 6.6%. Motor vehicle theft increased by 2.2%. Overall, the state index crime volume decreased 5.4% compared to 2017.

The total number of juvenile arrests in 2018 decreased 11.2% from 2017, and adult arrests decreased 2.5%.

The number of assaults on police officers in 2018 showed a 1.4% increase from 2017. Three law enforcement officers were reported killed feloniously in the line of duty, while five died in duty-related accidents in 2018.

In 2018, Texas law enforcement agencies reported 380 incidents of hate crimes involving 436 victims, 430 offenders, and 388 unique offenses. This marks an incident increase of 100.0% over 2017.

Law enforcement agencies reported 197,023 family violence incidents involving 212,885 victims and 207,360 offenders in 2018—an incident increase of 0.9% in family violence occurrences compared to the year before.

Sexual assault data showed 19,816 sexual assault incidents involving 20,592 victims and 20,532 offenders resulting in an incident increase of 9.4% from 2017.

STATISTICAL ANALYSIS OF CRIME

The UCR Program

In an effort to produce reliable crime statistics for law enforcement administration, scholars, researchers, members of the media, and the public at large seeking information on crime in Texas, the TXDPS UCR program collects crime data from local law enforcement agencies. The UCR program utilizes two different reporting methodologies: Summary reporting (SRS) and the National Incident Based Reporting System (NIBRS). The Summary Reporting System collects data on ten index crimes. By contrast, NIBRS collects a total of 52 offenses. Summary data (and Summary data derived from NIBRS reporting agencies) is used in a statistical summary tool referred to as the Crime Index. Although arson is an index crime in that the number of reported offenses is collected, arson is not included in the Crime Index.

"We are pleased with the decrease in both the volume and rate of violent crime in Texas for the first time in two years and the continuing decrease in the index crime rate in 2018," said DPS Director Steven McCraw. "We continue to be concerned with the strong nexus between criminal gangs and violent crimes including the trafficking of drugs and sex which impacts public safety and cannot be easily quantified until the statewide adoption of National Incident Based Reporting (NIBRS) has been completed. The Mexican Cartels continue to work closely with Texas-based gangs to support their drug and human smuggling and trafficking operations throughout the state and several longtime rival gangs are now working together to increase profits derived from drug and sex trafficking.

Furthermore, we are concerned with the dramatic increase in the number of hate crimes reported in 2018 and although some of the increases are likely attributable to UCR training and the increase in NIBRS reporting agencies, it warrants close attention.

We believe that the Texas law enforcement community can continue to reduce violent crime, by focusing resources on the state's most violent gangs. The Texas Anti-Gang centers established across the state, as part of Governor Greg Abbott's public safety strategy, combines local, state and enforcement and prosecutorial resources into a unified effort to detect, interdict, and prosecute those gangs that constitute the most significant criminal threat to Texans. DPS will continue to work closely with our local, state, and federal partners to proactively combat these predatory criminal organizations and we will continue to support local crime prevention operations in high crime areas when called upon."

Index Crime Rate

The crime rate reported by UCR is defined as the number of crimes committed per 100,000 population. This mechanism allows comparisons between periods of time to be made without being affected by population swings. For 2018, the Texas Crime Rate was 2,776.6 crimes per 100,000 population, a 6.7% decrease from 2017. The crime rate is based on the total Texas UCR reporting agency populations of 28,701,845.

Index Crime Volume

The total number of Index Crimes reported for 2018 was 796,924. This volume of crime represents a decrease of 5.4% when compared to 2017.

Participation

The Texas UCR program, though voluntary, experiences a high rate of participation with a total of 1,179 law enforcement agencies either directly reporting UCR data to the Department or being covered-by their county Sheriff. At the close of 2018, there were 318 NIBRS agencies approved and reporting. The FBI provides yearly population totals for UCR participating agencies (based on current Census data estimations.)

2018 CRIME DASHBOARD

CRIME BY VOLUME[1]

Offense	2018	2017	% Change
Murder	1,324	1,412	-6.2%

2011	99,114	-15.1%	964,689	-6.1%
2010	116,698	-9.3%	1,027,480	-4.6%
2009	128,654	-4.4%	1,076,548	1.9%
2008	134,575	-1.2%	1,056,580	2.0%
2007	136,206	-3.2%	1,036,295	3.8%
2006	140,716	-0.7%	998,493	3.5%
2005	141,734	-7.6%	965,153	-1.0%

[1]All percentages rounded to the nearest tenth.

[2]The increase in Hate Crime bias is attributed by both DPS training on proper UCR procedures, and an increased percentage of NIBRS agencies; as NIBRS is more efficient at capturing this data through more detailed reporting.
