# Texas Border Crime and Other Criminal Activity Report

TEXAS DEPARTMENT OF PUBLIC SAFETY  
CRIME RECORDS DIVISION

# Introduction

Texas Government Code § 411.055 requires DPS to prepare and submit the *Annual Report on Border Crime and Other Criminal Activity* to the Texas Legislature not later than May 30<sup>th</sup> of each year.

This report is formed by data submitted by local law enforcement agencies in Texas for offenses and arrests reported to DPS related to activity during the period of January 1, 2023, to December 31, 2023. The report utilizes Uniform Crime Reporting (UCR) data to provide border crime statistical data which occurred in Texas Counties contiguous to the Texas / Mexico border, as well as the counties that are next to those. Data relating to border crime arrests is sourced from the Computerized Criminal History (CCH) system. This data is derived from two different sources which collect different data types (one based on offense occurrence and the other based on arrest events), this data is presented separately. While there may be some overlap between the data sources, they cannot be reliably comingled as there is no information connected to a specific crime incident report to a specific arrest event. To reinforce the difference in the data, the information is visually separated by color with border crime statistical data presented in blue and gray while border crime arrest crime data is provided in black and white.

Section 772.0071(a)(1) of the Texas Government Code defines “Border crime” as “(a)ny crime involving transnational criminal activity that undermines public safety or security, including an offense:

- (A) during the prosecution of which an affirmative finding may be requested under Article [42A.054](#)(c) or (d), Code of Criminal Procedure;
- (B) under Chapter [19](#), [20](#), [20A](#), [21](#), [22](#), [46](#), [47](#), or [71](#), Penal Code;
- (C) under Title 7 or 8, Penal Code;
- (D) under Chapter [481](#), Health and Safety Code;
- (E) committed by a person who is not a citizen or national of the United States and is not lawfully present in the United States; or
- (F) that is coordinated with or related to activities or crimes that occur or are committed in the United Mexican States.”

Border crime statistics use Incident Based Reporting data from local law enforcement agencies contiguous to the Texas / Mexico border, as well as within the counties that are next to those. Further information about Incident Based Reporting activity is available on the Texas UCR Program [webpage](#).

Border arrests refers to criminal offenses committed by persons who are not lawfully present in the United States. Please note: the arrests in this report do not include all arrests committed by persons not lawfully present in the United States. Lawful presence is determined by the Department of Homeland Security (DHS) when the arrestees’ fingerprints are matched to fingerprints in the DHS database. If an unlawfully present individual is arrested and their fingerprints were not already enrolled in the DHS

database at the time of their Texas arrest, DHS would be unable to biometrically verify their immigration status and therefore, their arrests are not included in these counts.

Additional information related to the data collections used to inform the border arrest information in this report can be found on the [Texas Criminal Illegal Alien Data webpage](#).

The information contained in this Report is accurate as of March 30, 2024, for incidents that occurred in 2023. The underlying data changes continuously as submissions are created and updated from law enforcement agencies across the State each day. Because of this, it may not be possible to replicate the figures included here even using the same search criteria. Slight variations in results obtained using identical queries are expected and normal for the systems used in compiling this information due to the dynamic reporting nature of the process.

# Executive Summary

Texas is fortunate to have a high number of law enforcement agencies that contribute to the UCR program. As of March 30, 2024, there were 1,401 Texas agencies contributing data to the UCR program. Without their participation, reports such as this would not be meaningful.

Border crime impacts all areas of Texas. As the data contained in these pages demonstrates, criminal illegal aliens account for a significant number of serious offenses in Texas. The report does not imply that unlawfully present individuals commit crime at a higher rate than citizens, it simply provides a count of the Texas arrests of individuals who are not legally present in the United States. These criminals harm Texans and affect our safety and security.

DPS publishes a Crime in Texas (CIT) report every year using data collected through the state's UCR program. The CIT provides statistics and information for selected offenses across Texas, and each yearly report beginning in 2011 is available on the [CIT webpage](#).

# Border Crime Arrest Data

The table below depicts statewide border crime arrests related to individuals not lawfully present in the United States for the period of January 1, 2023, through December 31, 2023.

The data reflects the top 20 counties with the highest border crime arrests reported in border and non-border counties. The counties listed below represent just over 80% of the reported activity.

# Border Crime Statistical Data

This section reflects border crime statistical data submitted to the Texas UCR program by local law enforcement border agencies. For border agencies, the Texas UCR Program includes all reporting agencies within the Texas counties contiguous to the Mexican border. We have expanded that to include the counties that are adjacent to those border counties to ensure we are compliant with both GC 411.055 and Section 772.0071.

While 411.055 of the Texas Government Code directs the DPS to utilize NIBRS reporting for the Border Report, previous Border Reports were a mix of Summary and NIBRS data, presented in a summarized reporting method. As of 2021, all Texas agencies participating in the UCR program reported in the NIBRS format, but some summarized reports are still used to show an overall picture of crime. 2021 was the first year the UCR program no longer accepted reports in two formats—the traditional Summary reporting methodology was sunset at the end of 2020 and now all participating agencies are submitting the more data rich National Incident Based Reporting System (NIBRS) format.

***UCR data is continually updated so current data may slightly differ from what is contained in this report. Agency totals by month are available on the [DPS website](#).***

The following information is an overview of the Index Crimes by Agency for 2023. Then, a Statewide Index Crime Offense count by month.

Some caveats include:

- Most in Population (MIP) includes agencies with 100,000 or more jurisdictional population.
- Rape includes NIBRS offenses of Rape, Sexual Assault with an Object, and Sodomy.
- Assault includes NIBRS offense of Aggravated Assault and Simple Assault.
- Justifiable Homicide is not included.
- NIBRS start dates and months reported are provided for each agency to indicate the agencies that did not report a complete year.

# Detailed Border County Crime Statistics

The information on the following pages provides detailed totals of offenses for each border region law enforcement agency, grouped by county that reports uniform crime data to DPS. Data collected for 2023 incidents is NIBRS data. This is consistent with how the annual Crime In Texas report is generated.

For 2023, there is no UCR data included for Culberson County. Agencies within this county did not submit any UCR or NIBRS data during the 2023 reporting year.

UCR data is continually updated so current data may slightly differ from what is contained in this report. Agency totals by month are available on the DPS website.
